

Mailfinisher 9000

State-of-the-art on-line pressure sealer for the HPLJ9000 series of printers.

The Mailfinisher 9000 is an on-line pressure sealer for one stop print to mail processing of high volume applications. This very intelligent machine has many features that help provide a total one stop mailing system for any application.

- Processing speeds of up to 50ppm on-line
- Fold settings changed in seconds
- Easy to view control panel
- Automatic sealing roller cleaning mechanism
- In-feed capacity up to 3,100 sheets*
- Double feeding sensor and paper width sensor
- Digital batch counting & total count
- Exceptionally quiet
- Fully compatible with the HP LJ9000 range of printers
- Extending intelligent conveyor
- Auto divert in case of miss-feed
- Auto divert for oversize forms

*High capacity paper tray needs to be fitted

Maintenance

G&A are able to offer annual maintenance contracts for added peace of mind. These consist of eight working hour response, all parts and labour, preventative maintenance and *free replacement machine if required. Alternatively a bespoke package can be tailored to your specific requirements. Please note: Maintenance contracts outside the UK may vary.

* Subject to maintenance contract

Automatic extending conveyor activated by the number of forms processed

Automatic sealing roller cleaner. Cleaning pads prevent the build up of toner on the pressure seal rollers

The Maifinisher 9000 can be easily detached from the printer for maintenance to be carried out

Countermeasures. In the unlikely event of oversized stationery being used or a paper jam taking place, all the processed documents are automatically sent to the bypass tray.
